## Birmingham City Council Development Management in Birmingham Examination Main Modifications

| Reference | Policy and/ or paragraph number   | Proposed Modifications Deleted text is struck through; new text is in bold and underlined.  |
|-----------|---|---|
| MM1       | Policy DM1 Air<br>Quality   | Policy DM1 Part 1 1or increase exposure <u>at the development site or other relevant receptors</u> to unacceptable levels of air pollution will not be considered favourably.   |
|           |   | Policy DM1 Part 2 2. <b>Where required.</b> mitigation measures such as low and zero carbon energy, green infrastructure and sustainable transport can to help to reduce and/or manage air quality impacts and will be proportionate to the background air quality  |
|           | Paragraph 2.7   | Paragraph 2.7 (last sentence) 2.7 'Unacceptable' deterioration and 'unacceptable levels' is are defined as where the development, in isolation or cumulatively, would result in exposure to pollutant concentrations close to the limit values within 5% of below the nationally or locally set objectives at the development site and/ or other relevant receptors: and where development would result in further exceedances where pollutant concentrations are already over the limit values.      |
| MM2       | Policy DM2<br>Amenity   | Add the following footnote to Policy DM2 Amenity:  See also Policy DM10 'Standards for Residential Development' where proposals relate to residential development.  |
|           | Paragraph 2.20  | Paragraph 2.20 2.20 Consideration should not only be given to the impact of individual developments, but also to cumulative impacts of development proposals in the vicinity. As a minimum, the definition of 'in the vicinity' is the area immediately adjoining and directly opposite the application site; but each proposal will be assessed on a site-by-site basis with scope agreed between the applicant and the Council through the planning application process.                            |
| MM3       | Policy DM3 Land affected by contamination, instability and hazardous substances | Policy DM3 Part 2 2. All proposals for new development on land which is known to be, or potentially, contaminated or unstable, will be required to submit a preliminary risk assessment, and where appropriate, a risk management and remediation strategy based on detailed site investigation to <a href="mailto:minimise and mitigate">minimise and mitigate</a> remove <a href="mailto:unacceptable">unacceptable</a> risks to both the development and the surrounding area and/ or groundwater. |

|-----------|--|---|--|--|--|--|
|           | paragraph<br>number                    | Deleted text is struck through; new text is in bold and underlined.   |  |  |  |  |
| MM4       | Policy DM4<br>Landscaping<br>and trees | Policy DM4 Part 2 2. The composition of the proposed landscape should be appropriate to the setting and the development, as set out in a Landscape Plan*, with opportunities taken to maximise the provision of new trees in appropriate locations within a multifunctional green infrastructure network, and other green infrastructure, create or enhance links from the site to adjacent green infrastructure and support objectives for habitat creation and enhancement as set out in the Birmingham and Black Country Nature Improvement Area Ecological Strategy 2017-2022 and subsequent revisions.   |  |  |  |  |
|           |  | Policy DM4 Part 3 3. Development proposals must seek to avoid the loss of, and minimise the risk of harm to, existing trees of quality, woodland, and/or hedgerows of visual or nature conservation value, including but not limited to trees or woodland which are subject to a Tree Preservation Order., or which are designated as Development resulting in the loss or deterioration of Ancient Woodland or Ancient/ Veteran Trees will be refused, unless there are wholly exceptional reasons and a suitable compensation strategy exists, or which are designated as Where trees and/or woodlands are proposed to be lost as a part of development, this loss must be justified as a part of an Arboricultural Impact Assessment (AIA) submitted with the application. |  |  |  |  |
|           |  | Policy DM4 Part 5 (Last sentence) 5 Where on-site replacement is not achievable, contributions to off-site tree planting will be sought through a Section 106 Agreement. The method of calculating these contributions will be contained within the city's Tree Strategy.   |  |  |  |  |
|           | Paragraph 2.37                         | Paragraph 2.37 2.37 Trees of quality classified in line with BS5837 as being of categories A or B in value quality and woodland and/or hedgerows of visual or nature conservation value should be considered as worthy of protection and development proposals should seek to avoid their loss and minimise risk of harm.   |  |  |  |  |
|           | Paragraph 2.39                         | Paragraph 2.39 2.39 Where development would result in the loss of a (BS5837) category A, B or C tree(s) and / or other landscaping, adequate replacement planting will be assessed against the existing value of the tree(s) removed, calculated using the Capital Asset Value for Amenity Trees (CAVAT) methodology (or other future equivalent), pre-development canopy cover and biodiversity considerations. Reasonable deductions will   |  |  |  |  |
| MM5       | Policy DM6<br>Noise and<br>vibration   | Policy DM6 Part 2  2. <b>Applications for</b> Nnoise and/or vibration-generating development must, where relevant. be accompanied by an assessment of the potential impact of any noise and/ or vibration generated by the development on the amenity of its occupiers, nearby residents and other noise sensitive uses/ areas, including nature conservation. Where potential adverse impact is identified, the development proposal shall include details on how the adverse impact will be reduced and/or mitigated.   |  |  |  |  |

| Reference | Policy and/ or paragraph number                               | Proposed Modifications Deleted text is struck through; new text is in bold and underlined.   |
|-----------|---|--|
|           |   | Policy DM6 Part 3 3. Applications for Nnoise-sensitive development (such as residential uses, hospitals and schools) must, where relevant, be accompanied by an assessment of the impact of any existing and/or planned sources of noise and vibration in the vicinity of the proposed development including transport infrastructure, entertainment/cultural/community facilities and commercial activity. Where potential adverse impact is identified, the development proposal shall include details on how the adverse impact will be reduced and/or mitigated.   |
|           | Paragraph 2.52  | Paragraph 2.52 2.52 In all cases, the assessment will be based on an understanding of the existing and predicted planned levels of environmental noise at both the development site and nearby receptors and the measures needed to bring noise down to acceptable levels for the existing or proposed noise-sensitive development. A noise assessment and scheme mitigation will be required as part of the planning application. The determination of noise impact will be based on the Noise Policy Statement for England and the Planning Practice Guidance on Noise. Although not a Supplementary Planning Document. the Council also has a detailed guidance note on Noise and Vibration maintained by Environmental Health. |
| MM6       | Policy DM8 Places of worship and faith related community uses | Policy DM8 Part 1  1. Except for any specific allocation in the Local Plan. the Council's preferred locations for the development of places of worship and faith related community uses are in the network of centres as defined in Policy TP21 of the Birmingham Development Plan. Proposals for development outside of the network of centres these locations will be considered favourably where  |
|           | Paragraph 3.10  | Paragraph 3.10 3.10 The <u>preferred</u> most appropriate locations for places of worship and faith related community uses is in the network of centres as is defined in Policy TP21 of the BDP <u>and as part of any specific allocations in the Local Plan.</u> These are the most sustainable locations in terms of transport accessibility and parking. Other locations <del>outside</del> of the network of town-centres will be considered favourably where the criteria outlined in the policy can be satisfactorily met. Proposals for places of worship and faith related community uses should also comply with other relevant local plan policies and guidance.   |
| MM7       | Policy DM9 Day nurseries and early years provision            | Policy DM9 Part 1  1. Except for any specific allocation in the Local Plan. the Council's preferred locations for the development of day nurseries and facilities for the care, recreation and education of children are in the network of centres as defined in Policy TP21 of the Birmingham Development Plan. Proposals for development outside of the network of centres these locations will only be considered favourably where  |
|           | Paragraph 3.18  | Paragraph 3.18 (4 <sup>th</sup> sentence) 3.18The network of centres as defined by Policy TP21 of the Birmingham Development Plan <b>and as part of any specific</b>   |

| Reference | Policy and/ or paragraph number   | Proposed Modifications Deleted text is struck through; new text is in bold and underlined.  |  |  |
|-----------|---|---|--|--|
|           |   | allocations in the Local Plan, are is considered the most appropriate preferred locations for such uses, but other locations outside of centres will be considered appropriate where the policy criteria are met  |  |  |
|           | Paragraph 3.19  | Paragraph 3.19 3.19 If you are using your home (dwellinghouse) for childcare provision and more than seven children are minded, not including your own children, for more than two hours a day, or most of the rooms within your dwellinghouse is used for childcare so that the main use no longer as your home, this will be considered as a day nursery and planning consent would be required.  |  |  |
|           | Paragraph<br>3.20.  | Paragraph 3.20 (last sentence) 3.20It is therefore important that sufficient safe parking is provided, following the guidance set out in the council's  Parking Guidelines and Car Park Design Guide Supplementary Planning Documents and any subsequent revision in a location that will not endanger other road users or pedestrians.   |  |  |
| MM8       | Policy DM10 Standards for residential development will be required to meet the minimum Nationally Described Space Standards (A)  This does not include specialist accommodation covered by Policy DM12 and defined in paragraph 4.2 document. |   |  |  |
|           |   | Policy DM10 Part 6 6. Exceptions to all of the above will only be considered where it can be robustly demonstrated with appropriate evidence that to deliver innovative high quality design, deal with exceptional site specific issues or respond to local character, adhering to the standards is not feasible due to physical constraints or financial viability issues. Any reduction in standards as a result must and where it can be demonstrated that residential amenity will not be significantly diminished. |  |  |
|           |   | Footnote to Policy DM10 * Standards Guidelines are set out in Places for Living SPD which will be replaced by the Birmingham Design Guide.  |  |  |
|           | Paragraph 4.5   | Add to Paragraph 4.5: 4.5The Policy will not apply to applications that are already registered prior to the date of adoption of the DMB.  |  |  |
|           | Paragraph 4.11  | Add additional paragraph at 4.11.  4.11 'Physical constraints'. as described in Part 6 of the policy, may include (but are not limited to) site specific constraints such as topography, flood risk, ground conditions, location of services or heritage and character considerations.  |  |  |

| Reference   | Policy and/ or paragraph number                    | Deleted text is struck through; new text is in bold and underlined.   |  |  |  |  |
|---|--|---|--|--|--|--|
| MM9   | Policy DM13<br>Self and<br>custom build<br>housing | Policy DM13 Part 3 3. Affordable self-build plots will be considered and encouraged as a suitable product within the affordable housing-requirement mix provided on larger sites (200 dwellings or more) where it is demonstrated to meet an identified ne and is not substituted for needed social rented and affordable rented housing.   |  |  |  |  |
| Policy DM14 Part 5 5. On Birmingham's strategic highway network, and other principle and main distribution opportunities to remove unnecessary access points. New direct vehicular accesses local plan or where there are no practical alternatives (including consideration of important plans). |  | Highway Safety and Access <u>Transport Access and Safety</u> Policy DM14 Part 1  1. Development must ensure that the safety of highway users is properly taken into consideration and that any new development would not have an <u>unacceptable</u> adverse impact on highway safety.  |  |  |  |  |
|   | New paragraph<br>5.10                              | In relation to criteria 6.e.of the policy. 'necessary or future transport improvements' are defined as those included in policies, strategies and programmes published by Birmingham City Council, West Midlands Combined Authority.  West Midlands Rail Executive. Network Rail. Highways England. National Government and other relevant public sector organisations.   |  |  |  |  |
| MM11  | Policy DM15 Parking and Servicing                  | Policy DM15 Part 2 2. New development will <u>need</u> be required to ensure that the operational needs of the development are met and <u>in terms of</u> parking provision, including parking for people with disabilities, cycle parking and infrastructure to support the use of low emission vehicles and car clubs. <u>is in accordance with the Council's Parking Supplementary Planning Document.</u> Policy DM15 Part 3 3. Proposals for parking and servicing shall avoid highway safety problems and protect the local amenity and character of the area. Parking <u>and servicing</u> should be designed to be secure and fully accessible to <u>its</u> all users and adhere to the principles of relevant Supplementary Planning Documents." |  |  |  |  |
|   | Paragraph 5.14<br>(formerly 5.13)                  | Paragraph 5.14 (formerly 5.13) It provides revised parking standards for all new developments in the city to reflect the National Planning Policy Framework. The approach to the provision of parking aims to promote sustainable transport, reduce congestion, improve road safety and reduce pollution. The Parking SPD will be used as a guide in the determination of planning  |  |  |  |  |
