<b>Q8. Are there any additional comments you would like to make with regard to the Main Modifications of the DMB?</b>	
<p>The proposed Main Modification to Policy DM6, to include clarification that the Noise &amp; Vibration Policy should only be applied to applications “<i>where relevant</i>”, is considered to be necessary to make the Policy wording effective. This recognises that the individual circumstances of application proposals and application site locations may not require an impact assessment to be undertaken. This element of the proposed Main Modification reflects the discussion held at the Examination session pertaining to this Policy.</p> <p>The proposed Main Modification to paragraph 2.52, to clarify the scope of the noise assessment work required to support planning application proposals where relevant and confirm that the Council’s detailed guidance note on Noise and Vibration is not Supplementary Planning Guidance improves the effectiveness of the Policy wording. This amendment addresses queries made previously by the Langley Sutton Coldfield Consortium and reflects the discussion held at the Examination session pertaining to this paragraph.</p>
