## Weekly Report: 22nd to 28th January 2022

Source: UKHSA data accessed 01/02/22; NHS T&T; NHS NIMS

In the 7 days up to 28<sup>th</sup> January, new cases decreased, along with the overall case rate. The % of positive PCR tests and the testing rates using PCR and LFD have also decreased.

All adults are encouraged to do regular home testing using the rapid Lateral Flow Tests. The test kits are [available at community pharmacies](#) and council collection points [across the city](#), or you can also order online for home delivery directly from the government for [free by post](#).

In hospitals across the city, admissions ranged between 57 and 98 new cases a day in the week ending 28<sup>th</sup> January (total = 556), a decrease of 14% when compared to last week's admissions of between 65 and 113 new daily cases (total = 644).

There were 15 deaths reported this week in Birmingham, a decrease compared to 35 deaths reported in the previous week.
