

9/9/44

Dear Sir,

B'ham Development Plan 2031

I refer to your letter of 22nd August and note that despite nearly 6000 comments from local residents, not one has had any effect on the plan, I was under the impression that the council was supposed to plan to benefit local residents and their views incorporated into the plan.

It is obvious that B'ham Council do not have any understanding about the local infrastructure problems e.g. traffic, school places, environmental etc which will be exacerbated by 6000 extra houses and 80 hectares of industrial development.

Yours faithfully

M. Cornbill
