

This proposed development is out of proportion to the all ready congested area as the roads in and around this area are prone to severe congestion in the mornings and evenings i.e. Webster way Helen Bay Road with people trying to get to work. Part unless the infrastructure is developed before the actual buildings commenced there would be a chaotic situation in the general area with all the extra traffic. Also the local schools and hospital would not be able to cope with all the extra people doctors surgeries would be inundated with extra patients. B.c have not notified you of all the pitfalls concerning

6/6/9/14

Dear Mr Kemp,

I am very concerned that B.c have submitted the plans for the building of 6,000 homes on Sutton Green belt land without any of the complaints local residents have concerns about, the land which is agricultural land has a diversity of flora and fauna and also a brook which has endangered species of wild life in it. The area is of significant historical importance with grade 2 listed buildings. The vast scale of

I have put pen to paper regarding this matter and I sincerely hope the £6,000 or so protesters get - these letters in as well Sutton Coldfield is a ~~very~~ very nice place with many of wealthy Birmingham people living in the area so I am certainly convinced they would not want this area turned into a multi-cultural metropolis of Birmingham.

Yours Sincerely
Mr A. S. Bennett

P.S. on the long term development some of the proposed housing will be encroaching on the borough of Warwickshire

this development and have shown a total disregard for all the objections complaints which is a serious move in my opinion they were hoping to get this development approved without our concerns and opinions being listened to when the boundary commission look Sutton Coldfield in Birmingham there were many objections and since we have become the largest Council in the country there are plans afoot to put Sutton Coldfield back under its own rule, so if this happens the people of Sutton Coldfield would certainly not want our Green Belt - Land developed in this way so
