## Clearing the cache in the Oracle system

*Cache* is the temporary memory feature of your computer, that enables you to access some information more quickly, based on the recent 'history' of your activity. Sometimes you may need to clear this cached data to refresh your browsing history so that you can access new information. To do so in the Oracle system, please follow the four steps set out below.

**1. Click on 3 dots top right of the Oracle screen** (highlighted in yellow in the screenshot below).

	1	D 6	Employme	nt Info -	Oracle F	usion X	Velcome to the int	anet	×   -	+												-	×
<	-		С	Ŵ	Ô	https://e	enre.fa.em3.oracleclou	l.com/hcm	1UI/faces	s/FuseOv	erview?	?fnd=%	6252FWEE	B-INF%2	52Foracle%	252Fapps	A»	Q	τò	ß	ζ≡	Ē	
	Weld	come t	to PRODUC	TION Er	vironme	nt																	

2. Select 'History' from the list displayed behind the 3 dots.
