Statement of Evidence for Path Claim BAP 51

- The path is first recorded in an (unmade) Quarter Sessions Highways Order of 1847 when it formed the termination of another path which was proposed to be closed. (The Order is held by Staffordshire County Record Office under reference QSB/Mich. 1847.) Since a public path cannot be a cul-de-sac under normal circumstances, and the path to be closed did not stop at a special public point (such as a mountain top or a public well), then the claimed path must also have been a public highway.
- 2 The route is shown, and labelled 'FP', on the first edition (1880's) of the Ordnance Survey 6 inch map.
- 3 The route is recorded on the (undated) City Council map of public rights of way.
- 4 The route us open and unobstructed throughout its length, with standard street lighting and a tarmac surface at the end where it meets Oak Close.
- 5 It is considered, therefore, that it is reasonable to allege that the route subsists as a public footpath and should be recorded as such on the Definitive Map.
