Statement of Evidence for Path Claim BAP 10

- The path is first recorded on the map with the Yardley Tithe Apportionment 1847, although generally on a different alignment to that on the subsequent Ordnance Survey maps. (Held by the City Council in the Central Reference Library.)
- The present route is shown (before its subsequent diversion), and labelled 'FP', on the first edition of the Ordnance Survey six inch maps of 1887 and 1888.
- The continuation of the path in Solihull was diverted by a Quarter Sessions Highways Order of 1931. (Held by the Warwickshire County Record Office at QS47/319 Epiphany 1931.)
- The section of the path in Birmingham was apparently left unaffected when housing estates were built on either side of it, as can be seen by comparing the different editions of the Ordnance Survey maps.
- This section is generally unsurfaced, and is used by some residents to gain access to garages.
- The route is recorded on the (undated) City Council map of public rights of way.
- It is considered, therefore, that it is reasonable to allege that the route subsists as a public footpath and should be recorded as such on the Definitive Map.
