Statement of Evidence for Path Claim BAP 68

- 1 The route is shown, as a road, on the map with the Yardley Tithes Apportionment of 1847. (Held by the City Council in the Central Reference Library.)
- 2 The route is shown, as a bridge over the railway, between the two roads, on all Ordnance Survey maps from the first edition of the six inch map (1880's) to the present day.
- 3 The route is a narrow (formerly road) bridge and has a good, tarmac, surface with bollards at each end to prevent use by vehicles. This means that it is either now only a public footpath, or that it remains as a restricted byway since it has not been used by mechanically propelled vehicles for many years.
- 4 No Highways Order has been found closing the route, or restricting its use.
- 5 It is considered therefore that it is reasonable to allege that the route subsists as a public footpath and should be recorded as such on the Definitive Map.
