

DEVELOPING
COMMUNICATION IN
EARLY YEARS

SIGN UP

This course has been designed to respond to the **growing number of children who are experiencing early communication challenges.**

It explores the **importance of communication skills** and the **typical stages of development**, before looking more closely at the **barriers which prevent children with SEND** and how these can be overcome with **early identification** and a **tailored approach to communication development.**

DEVELOPING COMMUNICATION IN EARLY YEARS

YOU WILL LOOK AT:

- Explore the history of communication and its stages
- Consider your approach to identifying communication needs
- Understand how to interpret communication cues in non-verbal children
- Develop the confidence to identify needs and act quickly to support
- Know where to access specialist intervention
- Consider how you can adapt your assessment processes to better respond to communication needs in next steps planning
