

2011 Census: Key Statistics for Birmingham and its constituent areas

KS205 Passports held

This table is part of the 'Key Statistics for local authorities and local areas in England and Wales', the first release of the key statistics that add detail to the population estimates from the 2011 Census of Population for England and Wales that were published in July 2012.

This workbook provides Key Statistics for Birmingham Districts, wards and other selected areas wards as at census day, 27 March 2011.

Wards are based on 'Best Fit' approximations calculated by the Office for National Statistics.

Results for Birmingham wards are based on allocation of whole Census Output Areas.

Data for any Census Output Area that is split by a new ward boundary are allocated to the ward that contains the greatest share of its population.

Notes and Definitions

1. The main population base for outputs from the 2011 Census is the usual resident population as at census day (27 March 2011). Although the population base for enumeration included non-UK short-term residents, these are not included in the main outputs from the 2011 Census, but are analysed separately. All outputs, unless specified, are produced using only usual residents of the UK. For 2011 Census purposes, a usual resident of the UK is anyone who, on census day, was in the UK and had stayed or intended to stay in the UK for a period of 12 months or more, or had a permanent UK address and was outside the UK and intended to be outside the UK for less than 12 months.
2. Further information about the census estimates, including details about the methodology used, information about data quality and a range of supporting information are available on the ONS website at <http://www.ons.gov.uk/census>

Definitions

Passports held

Results for 'Passports held' classify a person according to the passport or passports that they held at the time of the 2011 Census. People were asked to indicate whether they held no passport, a United Kingdom passport, an Irish passport, or a passport from another country, and write in the name of the other country if applicable. If more than one of the options were applicable people were asked to indicate all that applied.

In results that classify people by passports held, those who hold a United Kingdom or Irish passport, and any other type of passport, will appear in each applicable category.

The categories 'EU countries' and 'non-EU countries' relate to the European Union (EU) as at March 2011.

Usual resident

The main population base for outputs from the 2011 Census is the usual resident population as at census day 27 March 2011. Although the population base for enumeration included non-UK short-term residents, this population is analysed separately and is not included in the main outputs from the 2011 Census. All outputs, unless specified, are produced using only usual residents of the UK.

For 2011 Census purposes, a usual resident of the UK is anyone who, on census day, was in the UK and had stayed or intended to stay in the UK for a period of 12 months or more, or had a permanent UK address and was outside the UK and intended to be outside the UK for less than 12 months.

Geographic information

Information about the geographic methods and principles used to produce 2011 Census results can be found at <http://ons.gov.uk/ons/guide-method/geography/products/census/index.html>
