# Why the changes?

We see a large number of vans visiting our Household Recycling Centres every week. By introducing a booking system we are able to work with residents and businesses, who have large amounts of waste, to encourage more recycling across the city.

In addition, the booking system will allow us to manage queues at our busier times, reducing the time you have to wait to dispose of your waste.

Pre-book your visit from 10 July 2017:
