Why are we consulting?

We want to hear your views about how we spend your money to meet the needs of the city

- There are clear challenges for the city
- We have listened to what we have been told and developed a clear long term vision and priorities
- We have a clear long term strategy in place to support the economic growth of the city
- But we will have less money in the future
- This is one of your opportunities to influence that decision making

We'll put citizens and neighbourhoods at the heart of our decision making – working with our partners to make this happen.

We'll promote the independence of the people who use our services.

We'll use our assets carefully to support growth in areas such as jobs and homes – ensuring that everyone can benefit.

We'll support our decision making with strong evidence and the resources to deliver.

We'll be flexible and agile so we can respond quickly to the changing needs of the city and its citizens.

Our values are important to staff and citizens, so we'll make sure we work to them.
